Perfecting the Art of Relaxation...

Here at the Common Man Spa we are dedicated to the mind body connection. We are here to provide you with a haven to experience the power the body has to heal itself. We invite you to be our guest and see how good you can feel.

We offer the following guidelines to help you make the most of your spa experience...

- **Take your time.** Make the most of your visit and schedule a little extra time to enjoy the sauna, hot tubs and pool before or after your treatment. Clothing is not optional so don't forget your swimsuit.
- **(Un)dress the part.** We provide you with robe and slippers during your stay. Your privacy will be respected at all times and you will be modestly draped during all treatments that require you to disrobe, however we suggest that you undress to your comfort level. For services received clothed, comfortable attire is ideal. Open toe shoes are suggested for all pedicure treatments.
- **Talk with your therapist.** Your comfort and satisfaction are our number one priority. Discuss with your therapist any areas of concern, and any areas to be avoided. If you are uncomfortable at any time during your spa service please let us know. We are not easily offended and prefer for you to be happy!
- **Take a message.** Please silence all electronics during your visit with us.
- **Shhhh...** Please keep in mind other guests sharing our space. Voices should be kept in a hushed tone throughout the treatment and waiting areas.
- **Call in sick.** For the health and safety of our staff and other guests if you are experiencing cold or flu symptoms we ask that you reschedule your appointment for when you are feeling better.
- **Relax.** We recommend enjoying some quiet time before and after your treatments. Take a few deep breaths, close your eyes and let us do the rest.

A person is lying on their back on a massage table, receiving a massage. The therapist's hands are visible, one resting on the person's shoulder and the other on their back. The person's eyes are closed, and they appear to be in a state of relaxation. The background is softly blurred, showing what might be other people in a spa or wellness center.
